**WINDSHIELD
PROTECTION**

Windshield Protection

Front windshield repair of minor chips and cracks caused by propelled rocks or road hazard debris while driving on public roads, streets, and highways won't increase your vehicle insurance premiums if used. At your convenience, repairs can be done at the dealership, your home, or your office.

Our repair professionals can repair many types of windshield chips and breaks, including cracks up to six inches long (approximately the size of a dollar bill). If the bill covers the damages, it is likely that the windshield can be saved without replacement. In the event the windshield cannot be repaired, it may be replaced.

CRACKED WINDSHIELD? WE'VE GOT YOU COVERED!

- **Avoid expensive out-of-pocket repairs:**
Coverage helps you avoid unexpected costs associated with windshield damage.
- **Maintain vehicle appearance and safety:**
A clear, undamaged windshield ensures optimal visibility and keeps your vehicle looking its best.
- **Prevent minor damage from spreading:**
Small chips can quickly turn into large cracks. Coverage ensures prompt repairs before the damage worsens.
- **Includes ADAS recalibration (if required):**
If your vehicle has Advanced Driver Assistance Systems, recalibration is included after windshield replacement, saving you time and money.

ADAS is an important safety feature of your vehicle and consists of cameras, sensors and other devices that help drivers avoid accidents.

Typically circular cracks and fractures that resemble a target, with concentric rings around the impact point.

A sharp central impact with many thin, needle-like radial cracks spreading outward like a star.

Linear fracture often spreading from an impact point that can lengthen over time and impair visibility and structural integrity.

Usually bullseye concentric rings around the pit and long starburst legs radiating outward.
